"Eris Newson became a member of the Feilding and District Art Society in 2021 and within a matter of months had joined our governing committee. With a background that includes working with Square Edge Community Arts and the Arts Recycling Centre, Eris brought with her a huge range of knowledge about the how and what of running a community arts charity. In addition to supporting the board in her capacity as secretary, Eris is also the type of person who says 'yes' to any favour or request for support. She has helped deliver such initiatives as Take a Line for a Walk and Make Your Own - encouraging everyone in our community to get creative."
