"Trevor has skills and knowledge from his years as a teacher and has found it thoroughly rewarding to meet a family he has helped with English, while also enriching his own knowledge of another culture. Trevor says, "if our lives were reversed, I would like to think there were people who would assist me to assimilate into the new country". Two things he brings to his tutoring are a sense of humour and the use of drawing. Trevor is willing to go the extra mile by inviting his learners to his own home, and we are grateful for his ongoing work with ELP."
