

VOLUNTEER RECOGNITION EVENT  
PN | MANAWATŪ | HOROWHENUA | TARARUA

Te Wiki Tūao ā-Motu  
national volunteer week

"Paul came to Digits back in October 2021 and is an active member on our board. Paul is the owner of Smart Phone Repairs in Palmerston North and brings with him a wealth of business experience, digital and technical knowledge. Aside from this Paul has been able to take our damaged chromebook devices and use them for spare parts. He then helps some of our families whose devices are out of warranty with some free advice on their chromebook that is no longer working or is broken. Paul usually will find some parts such as a screen, keyboard, keys and at times has put the casing frame back on the computer for them and makes it workable again. Paul doesn't charge the mum or dad unless there is a part needed. The work Paul does enables the family to continue using the device and for it not to end up in landfill. It's a win/win for everyone. Digits really appreciates the work that Paul does for our organisation and people in our community."
