national volunteer week

"Esmee has been nominated as she has been an outstanding and hardworking Refugee Support Volunteer for us since September 2017. She along with her husband Ian are on their 10th former refugee family placement in Palmerston North which is absolutely incredible! Esmee has really gone above and beyond to support many families, with the help of her daughter and other members of her family around NZ Esmee has also provided just over 300 families with second hand sewing machines, fabric and accessories not only here in Palmerston North, Levin and Masterton but around the whole country which have been very well utilized and treasured by many in the refugee community. We are extremely grateful to Esmee and her family's support, it is greatly appreciated and invaluable to the Red Cross Pathways to Settlement Programme, we would be lost without her!"
