"Francelle has been an enthusiastic volunteer at ELP for a number of years, both as a home tutor to multiple learners and in helping to sort out resources for the centre. She currently home tutors people from Chinese, Japanese, Afghani and Burmese cultures. As a retired Year One teacher, she is passionate about literacy and competency in both spoken and written English. The best part of tutoring, she says, is the relationships and friendships built with each student. We greatly appreciate her commitment to ELP and our learners."
