"Stewart Harrex joined Environment Network Manawatū's (ENM) Management Committee in 2011 after earlier contributions as a member representative at ENM general meetings. By 2017, she took on higher duties as co-chairperson and eventually chairperson of the organisation until stepping down in 2022. A strong and passionate advocate for the environment, Stewart's professionalism, kindness and dedication helped guide ENM through flux, challenge and exponential growth. Her time with ENM saw a relocation to a central venue, a trebling of staff, ENM's movement towards being a sector lead for the environment, and the doubling of member groups. Paramount to her within all of this has been an unerring focus on the importance of ensuring the health and wellbeing of our environment and the people connected to it that underpins all her decisions. ENM is both humbled and proud to nominate a true wahine toa for recognition through this award."
