

VOLUNTEER RECOGNITION EVENT
PN | MANAWATŪ | HOROWHENUA | TARARUA

Te Wiki Tūao ā-Motu
national volunteer week

"Marta is the person I deal with from the Horowhenua Health Shuttle. She is absolutely incredible to work alongside of and is always friendly, kind and prompt with all correspondence and requests. Marta is the strong backbone behind the HHS and not only looks after the secretarial function for them but also does all of their Grant applications. Marta is 85 years old (not wanting to appear ageist and maybe this is not appropriate to even mention). But when people come to me saying they cannot apply for our grants online because they are too old. I tell them, actually I had a 85 year old who applied for her first grant online and even though I was on standby. She did not need my help, she managed it all by herself. HHS provide transport from Levin to Palmerston to over 10,000 passengers annually, who would have difficulty accessing their health appointments through age, disability, isolation or without financial means. The service is kept free."
